EXHIBITION THINKING

布展思考

We have been thinking about how to make the exhibition hall into a new space that is fun and interesting, but also full of high-tech sense. INTERNAL VALUE?

我们一直在思索如何把展厅打造成一个既好玩又有趣的全新空间，而且充满高科技感？

After deep thinking, we are bold and innovative, using advanced digital media technology, but also combined with the characteristics of the factory to design the exhibition. When you walk into the exhibition hall, you will first receive a smart bracelet. With the help of this bracelet, you can interact with the exhibition items in various exhibition areas, such as milk, yogurt and other product display areas, through the bracelet operation, participate in knowledge questions and answers, interesting challenges, and immersive feelings, so that everyone can understand the production process and the scientific and technological knowledge behind the product in play and interaction

经过深入思考，我们大胆创新，采用先进的数字媒体技术，还结合工厂特色来设计展项。当您步入展厅，首先会领取一个智能手环。借助这个手环，您能与各展区的展项展开互动，比如在牛奶、酸奶等产品展示区，通过手环操作，参与知识问答、趣味挑战，沉浸式感受，让大家在游玩、互动中了解产品生产过程和背后的科技知识

Reception area > Immersive Three-Fold Screen (Plan One)

先导篇>沉浸式三折幕(方案一)

Exhibition Media: Immersive Three-Fold Screen + General Planning Sandbox

展项媒体：沉浸式三折幕+总规沙盘

Exhibition Item Name: Immersive Prologue

展项名称：沉浸式先导篇

Display Content: Enter the immersive three-fold screen exhibition hall to watch the prologue film, which plays content related to the company's development history, leadership care, and honors received, and is linked with the sandbox to show the grand scale of the plant area. After watching the film, visitors can touch and query the company's content and honors on the three-fold screen. This allows the audience to clearly understand the hardships and brilliant achievements that Baladna has gone through. The elements in the sandbox, such as buildings, roads, and greenery, are all realistically made, and with the lighting effects, they can clearly display the day and night appearance of the plant area and the operating status of different areas.

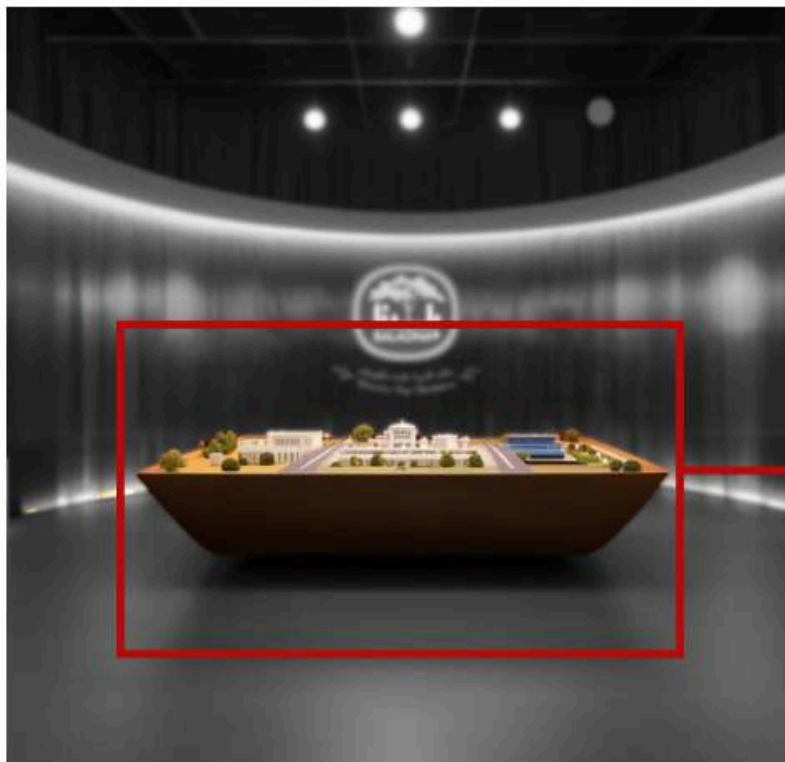

展示内容：进入沉浸式三折幕展厅观看先导片，播放企业发展历程、领导关怀、所获荣誉等相关内容，并与沙盘联动展现厂区宏伟规模，在观看完影片后，可在三折幕屏幕上、触控查询企业内容，企业所获荣誉。让观众清晰地了解巴拉德纳一路走来的风雨兼程与辉煌成就。沙盘中的建筑物、道路、绿化等元素均制作逼真，配以灯光效果，可清晰展示厂区的日夜风貌以及不同区域的运行状态。

Reception area > Mechanical Sand Table + VIP Reception (Plan Two)

先导篇>机械沙盘+VIP接待(方案二)

Exhibition Media: Mechanical Sand Table

展项媒体：机械沙盘

Display Content: The mechanical sand table interactive device of the factory is committed to bringing visitors a comprehensive and immersive experience of the whole picture of the factory. Every building, road and production area are accurately restored to ensure that visitors can clearly understand the layout and planning of the factory. Through the delicate process, it shows the unique style of production workshops, warehouses, office buildings and other buildings, as well as the direction of various transportation tracks and pipeline lines..

展示内容：本厂区机械沙盘互动装置致力于为参观者带来全方位、沉浸式的厂区全貌展示体验，每一处建筑、道路、生产区域都精准还原，确保参观者能够清晰地了解厂区的布局与规划。通过细腻的工艺，展现出生产车间、仓库、办公大楼等建筑的独特风貌，以及各类运输轨道、管道线路的走向。

Exhibition Item Name: Factory digital lifting sand table

展项名称：厂区数字升降沙盘

Exhibition Media: Augmented Reality

展项媒体: AR增强现实

Exhibition Item Name: Milk factory planning interactive experience

展项名称: 牛奶工厂规划互动体验

Display Content: Start the tablet scanning sandbox and activate the 3D factory model: 1. Touch roaming: Use your fingertips to zoom in and out to view the transparent operation of the production line, and click on the equipment to pop up real-time temperature and flow rate data; 2. Dynamic deduction: Slide to call out logistics simulation, link the cold chain vehicle path with the inventory pulse light effect, and long press the environmental protection area to trigger the sewage treatment animation and 90% reclaimed water reuse data; 3. Multi-dimensional perspective: Use the side button to switch the energy/people flow/environmental layers, and use two fingers to expand the planning extension area to preview the future unmanned delivery station.

展示内容: 启动平板扫描沙盘, 激活3D厂区模型: 1. 触控漫游: 指尖缩放查看生产线透明化运作, 点击设备弹出实时温度、流速数据; 2. 动态推演: 滑动调出物流模拟, 冷链车路径与库存脉冲光效联动, 长按环保区触发污水处理动画及90%中水回用数据; 3. 多维视角: 侧边键切换能源/人流/环境图层, 双指展开规划延展区预览未来无人配送站。

Interaction Name: Interactive wristband

互动名称: 互动手环

Display Content: Before entering the exhibition hall, visitors can pick up the smart interactive bracelet at the designated place and wear it. After entering the exhibition hall, in the area with interactive signs, visitors can easily participate in various fun interactions by simply relying on a bracelet. Whether it is a knowledge quiz or a creative challenge, the bracelet will record your every wonderful answer in real time. After the visit, according to the final score of the wristband statistics, visitors can go to the prize office to receive the corresponding rewards.

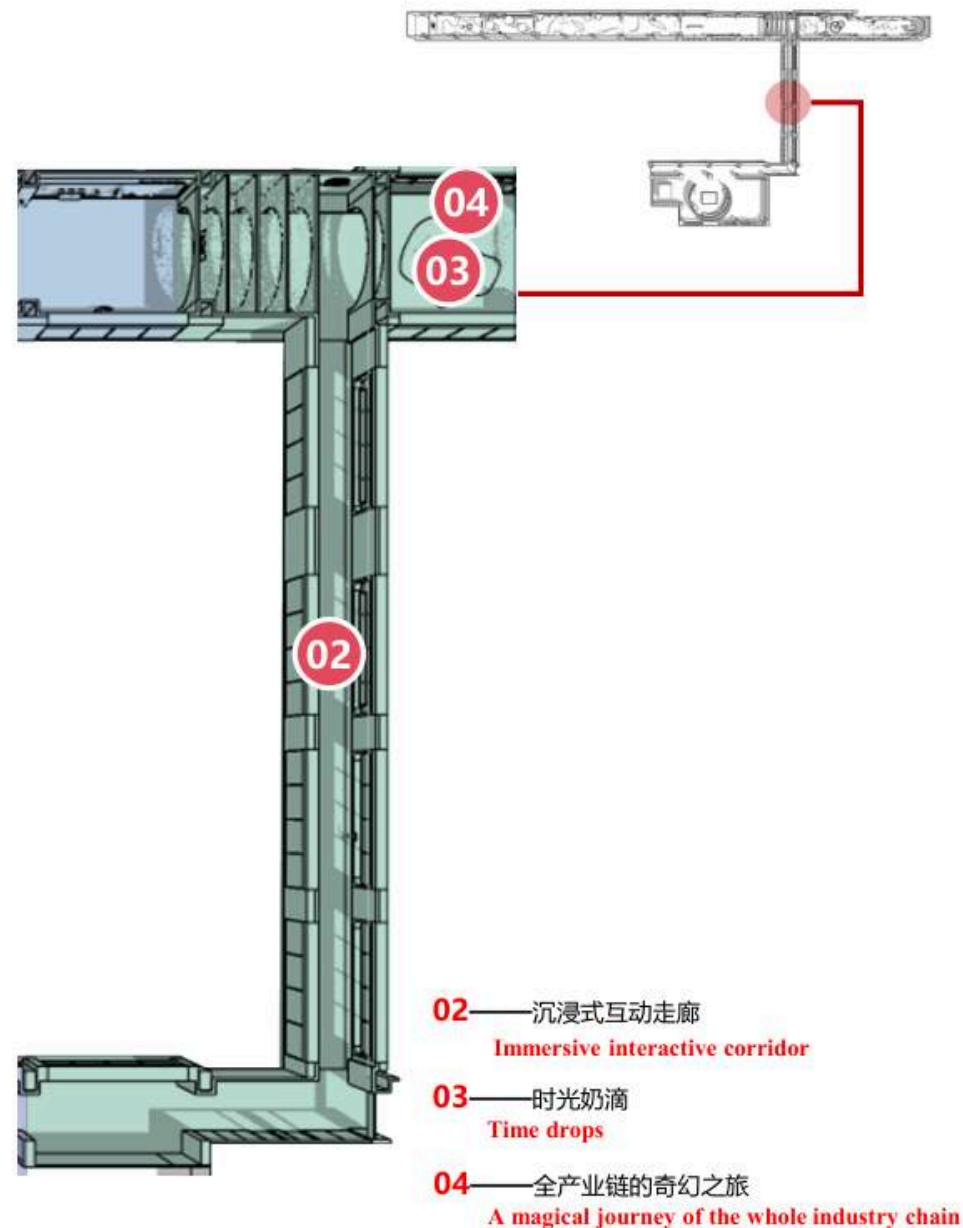

互动方式: 在踏入展厅前, 来访者可至指定地点领取智能互动手环并佩戴。进入展厅后, 在设有互动标识的区域, 来访者只需凭借手环, 就能便捷地参与各类趣味互动。无论是知识问答, 还是创意挑战, 手环都会实时记录您的每一次精彩作答。参观结束后, 依据手环统计的最终得分, 来访者可前往兑奖处领取相应奖励。

Exhibition Item Name: Immersive interactive corridor

展项名称：沉浸式互动走廊

Display Content: In this space, the glass curtain wall becomes the medium of holographic projection. When visitors wave their bracelets in this area, on the glass window or on the ground, their own small animation is generated. There are pictures of cows eating grass and pasture scenery. Create an amazing experience from the production site.

展示内容：在此空间中，玻璃幕墙化为全息投影的介质，当游客在此区域挥动手环，玻璃橱窗上或者地面上，生成专属的小动画，有关于奶牛吃草的，牧场风景的，在墙面飘落着发光的数据流，当游客伸手触碰，这些数据便会幻化成草原、奶牛与现代化挤奶设备的动态粒子光效，营造出身临生产现场的奇妙体验。

Exhibition Media: Multimedia interactive device

展项媒体: 多媒体互动装置

Exhibition Item Name: Time drops

展项名称: 时光奶滴

Display Content: When the media decoration is in standby mode, a dynamic milky white halo breathing effect is displayed in the device. When a visitor passes by, the device will present three different films in rotation: 1. A mini grassland landscape film; 2. A film demonstrating the vitamins and calcium people need through splashing milk; 3. A film where the ripples of milk expand into silhouettes of the essential nutrients for infants, teenagers, and the elderly.

展示内容: 在媒体装饰处于待机界面时, 装置中显示动态奶白色光晕呼吸, 当有游客朋友通过时, 装置中将呈现三种不同的影片, 分别展示, 1、迷你草原风景影片、2、通过飞溅的牛奶演绎人们所需要的维生素/钙质等、3、通过牛奶涟漪起的画面扩展为婴儿、少年、老人必要营养的剪影, 三个视频轮回播放。

Exhibition Media: Transparent slide screen

展项媒体: 透明滑轨屏

Display Content: On both sides of the transparent display windows, through the novel display form of interactive rail screens, the entire process of dairy products from production, processing, supply, and sales is shown. The rail screen moves slowly along the window track, allowing viewers to fully, deeply, and intuitively understand the dairy industry from milk source acquisition, production processing to product sales in the Middle East, North Africa, and other regions. They can also learn about the various links in the entire industrial chain, including sterilization, milking, and raw milk testing, thereby enhancing their understanding and trust in the dairy industry.

展示内容: 两边透明橱窗上, 通过互动透明滑轨屏这一新颖的展示形式, 展示奶产品从生产、加工、供货、销售的全流程, 轨屏沿着橱窗轨道缓缓移动, 让观众全面、深入且直观地了解奶业从奶源获取、生产加工到产品销售到中东、北非等地方, 了解杀菌、挤奶、原奶检测全产业链的各个环节, 增强对奶业行业的认知与信任。

PASTURE

Exhibition Media: Magnetic Levitation Device

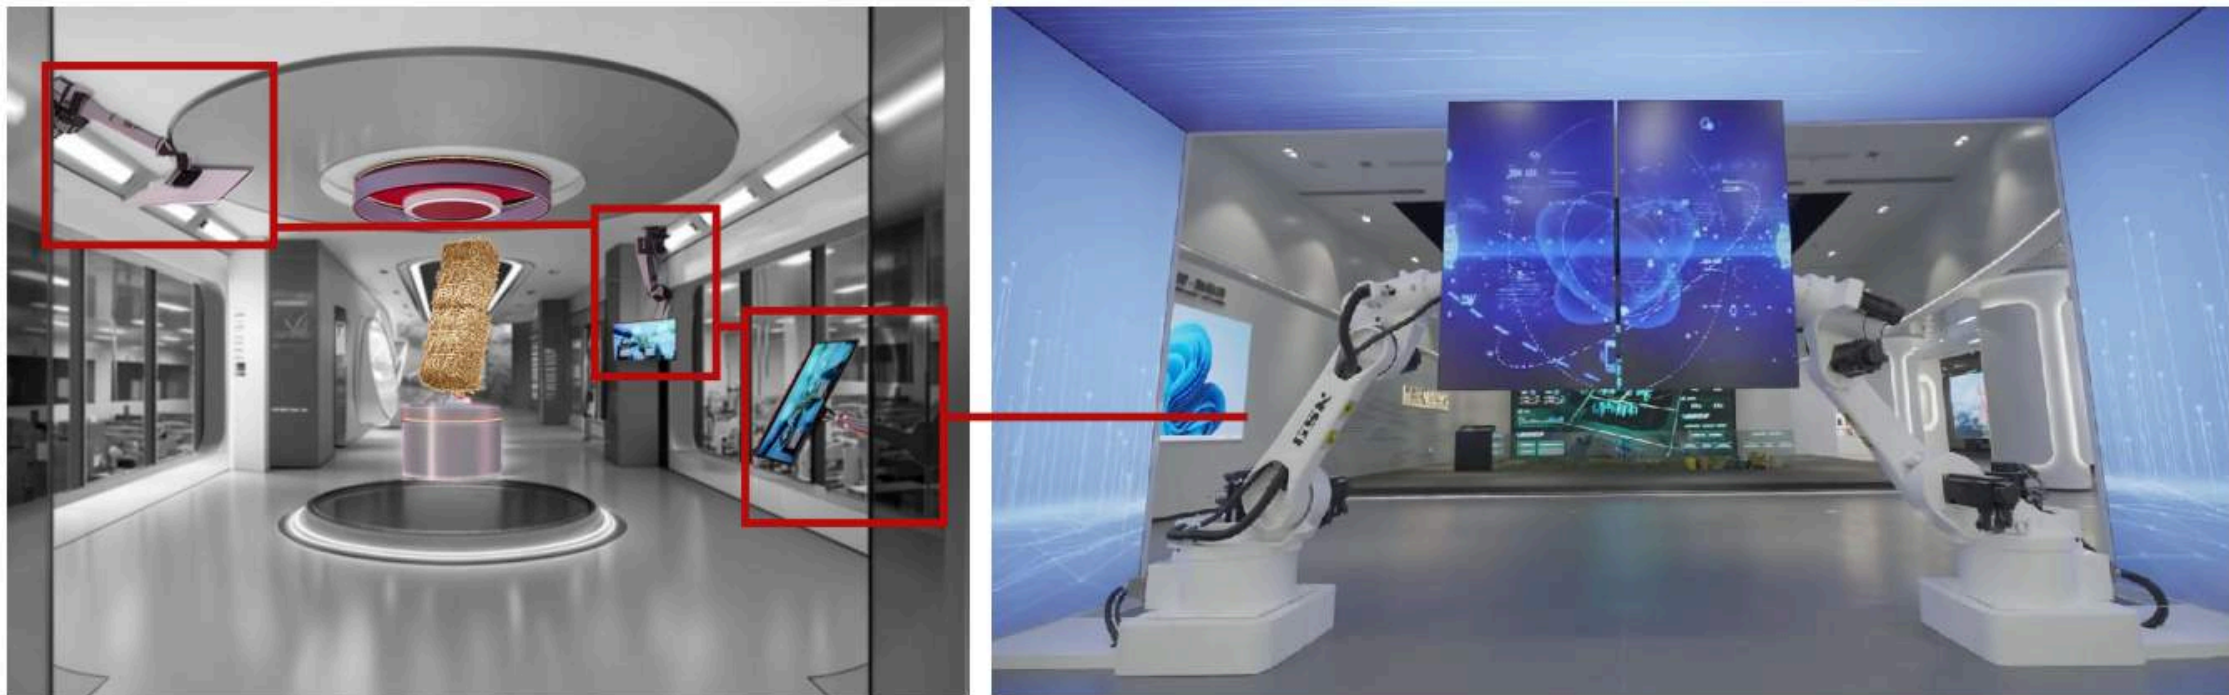

展项媒体：磁悬浮装置

Display Content: As the core highlight, the magnetic levitation device uses a strong and stable magnetic force to steadily suspend the carefully selected high-quality forage samples in mid-air. When visitors walk here, stepping into a specific sensing area, the grass device is activated immediately. The high-quality grass, which was originally stationary and suspended, suddenly began to rotate slowly as if it had been given life. Show the shape and posture of grass in front of visitors..

展示内容：磁悬浮装置作为核心亮点，利用强大且稳定的磁力，将精心挑选的优质牧草样本稳稳地悬浮于半空之中。当游客漫步至此，踏入特定的感应区域，牧草装置即刻被激活。原本静止悬浮的优质牧草，瞬间如同被赋予了生命一般，开始缓缓转动。在游客面前展示牧草的形态，姿势等。

展项名称：优质牧草展示

Exhibition Media: Three-Linked Screen Robotic Arm

展项媒体：三连屏机械臂

Exhibition Item Name: Characteristics of High-Quality Forage

展项名称：优质牧草的习性

Display Content: Upon entering this area, three digital technology robotic arms are evenly placed. In front of each robotic arm is a high-definition display screen. The mechanical screens can interactively combine or split to show ranch harvesting, beautiful pictures and videos of the ranch. They display exquisite images and detailed introductions of various common forages, animated diagrams of the internal structure of seeds, and show the embryonic root, plumule, and other parts. The three display screens show the growth cycle, environmental adaptability, and symbiotic relationships with animals. They fully display the important contributions and significance of forage to dairy cows.

展示内容：步入此区域，三块数字技术机械臂等距安置其中，每块机械臂前方对应一块高清显示屏，机械屏可以互动合屏，分屏展示牧场收割，牧场精美图片和视频。展现各种常见牧草的精美图片与详细介绍，呈现出种子内部结构的动画示意图，展示胚根、胚芽等三块显示屏展示，生长周期演绎、环境适应性展示、与动物共生关系呈现，全面展示牧草对奶牛重要贡献以及意义。

The device on the left continues to tell visitors about the living habits of ryegrass, alfalfa, and other forages, how to select and breed superior varieties, pest and disease control, the water requirements of different forages and the regulation of water volume and irrigation frequency, as well as the harvesting and daily management of forages. At the same time, using glass art devices, the microscopic morphology of seeds is displayed right in front of the eyes.

继续左边装置向来访者讲述，黑麦草、紫花苜蓿等牧草的生活习性，如何选育优良品种、病虫害防治、不同牧草的需水特性调节水量与灌溉频率，牧草的收割与日常的管理，同时利用玻璃艺术装置，将种子的微观形态展现在眼前。

Exhibition Media: Interactive LED Hemisphere

展项媒体: 交互式LED半球

Display Content: The spherical decoration is placed in a special container with a sophisticated sensor and rotating system built into the bottom of the container. When the audience gets close, they just need to touch the sphere lightly, and through the sphere art decoration, placed in the container, the sphere can rotate and interact with the screen, which shows the clear blue sky and white clouds of the pasture, vividly presenting the natural scenery of the pasture, cows grazing leisurely, workers carrying grass, modern milking equipment running.

展示内容: 球形装饰被放置在特制的容器内, 容器底部内置精密的感应装置和旋转系统。当观众靠近, 只需轻轻触碰球体, 通过球形艺术装饰, 放到容器中, 球体可以转动与屏幕互动, 屏幕上显示牧场湛蓝的天空和洁白的云朵, 栩栩如生地呈现出牧场的自然风光, 奶牛悠然吃草、工人搬运草料、现代化挤奶设备运转等

Exhibition Media: Image and Mechanical Linkage Device **Exhibition Item Name:** The Generation of a Drop of Milk

展项媒体: 影像与机械联动装置

展项名称: 一滴奶的产生

Display Content: We are now in the Dairy Cows Chapter. This milk-making interactive wall aims to present the complex process of making milk from a drop to a finished product in an intuitive, interesting, and educational way. Through the mechanical interactive touch screen, turn the valve to make the milk flow, go through the processes of milk collection and sterilization, and finally form a bottle of milk. It tells how a drop of milk goes through the standard process and is precisely adjusted to meet the standard requirements of specific products in terms of milk fat, protein, and other components. This allows visitors to gain a deep understanding of the mysteries of milk-making technology and the technological charm of modern dairy industry.

展示内容: 我们现在来到奶牛篇，本制奶互动墙旨在以直观、有趣且富有教育意义的方式，向观众呈现一滴奶到成品的复杂制作过程。通过机械互动触控屏幕，扭动阀门让奶液流动起来，经过提乳、灭菌、等环节最后形成一瓶奶，讲述，一滴奶经过了标准化流程，通过精密的调配，使牛奶的脂肪、蛋白质等成分比例达到特定产品的标准要求，让参观者深入了解制奶工艺的奥秘与现代乳业的科技魅力。

The screen hangs high above the exhibition hall, like a round of "eyes in the sky", showing daily scenes such as cows waking up in the morning, grazing leisurely in the pasture, resting in the afternoon, and pacing back to the barn in the evening..

展示内容：我们利用吊装的圆形屏幕，全方位展示牧场奶牛一天二十四小时的生活习性与动态。屏幕高悬于展厅上方，犹如一轮“天空之眼”，将奶牛从清晨苏醒、在牧场悠然吃草，到午后休憩、傍晚踱步回牛舍等日常场景——呈现。

Exhibition Media: Multimedia Game Device

展项媒体: 多媒体游戏装置

Display Content: This interactive exhibit focuses on the canning production line, aiming to provide visitors with an in-depth understanding of the complex production process of canned products, from raw material input to finished packaging, through a variety of innovative interactive forms. Customized mini-games are embedded in the device to experience key production links such as storage tanks, conveying pipelines, filling machines, canning machines, labeling machines, and testing equipment, making visitors feel as if they are in the ranch.

展示内容: 本互动展项聚焦罐装生产线, 旨在通过多种创新互动形式, 让观众深入了解罐装产品从原料输入到成品包装的复杂生产流程在异性装置中植入, 定制小游戏体验储存罐、输送管道、灌装机、封罐机、贴标机、检测设备等主要生产环节, 让观众仿佛置身于牧场之中。
